Rajkot, Gujarat, India

PROFESSIONAL SUMMARY

Motivated Computer Engineering student and aspiring Software Developer with a strong foundation in Full Stack Development and Cybersecurity. Experienced in building scalable CRUD applications using React.js, Node.js, and PostgreSQL. Proven track record in identifying system vulnerabilities through a 7-month cybersecurity internship. Seeking to leverage technical expertise in Cloud Computing and VAPT to contribute to a dynamic engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, Dart, SQL (PostgreSQL, MySQL)

Web Development: React.js, Node.js, Express.js, MongoDB, JSP, Servlets, WebSockets, REST APIs

Mobile & Cloud: Flutter, Dart, Basic Cloud Computing concepts

Cybersecurity: Kali Linux, VAPT, OWASP Top 10, Ethical Hacking, Web App Security

Tools & Productivity: Git, GitHub, Linux CLI, VS Code, MS Word, Excel, PowerPoint

EXPERIENCE

SkillPhantom Technologies

Nov 2025 – May 2026

Cybersecurity & Ethical Hacking Intern

Remote

- Gained hands-on experience in Linux security and web application security, focusing on the OWASP Top 10 vulnerabilities.
- Conducted Vulnerability Assessment and Penetration Testing (VAPT) through mentor-led training and practical projects.
- Documented security flaws and suggested remediation steps to improve overall system integrity.
- Developed defensive strategies and enhanced understanding of network security in a professional environment.

PROJECTS

Live demos and case studies available at sahashish.com.np

LMS (Learning Management System) | React.js, Node.js, MongoDB

- Engineered a comprehensive platform for course management and student tracking using the MERN stack.
- Implemented a flexible NoSQL schema in MongoDB to handle dynamic course content and user progress tracking.
- Designed an intuitive dashboard for instructors to upload materials and monitor student performance.

Web-based Vulnerability Scanner | Python, HTML, CSS, Batch Scripting

- Developed a tool to automate detection of security issues like SQL Injection and XSS using Python backend logic.
- Utilized Batch scripting for automated environment configuration and efficient scanning execution.

Hostel Management System | React.js, Node.js, PostgreSQL

- Built a full-stack CRUD application to automate room allocations and records for over 500 residents.
- Improved user engagement by 25% through a responsive UI and optimized PostgreSQL database queries.

EDUCATION

RK University

Bachelor of Engineering in Computer Engineering

CGPA: 8.41 / 10.0

2022 – 2026

Rajkot, Gujarat

CERTIFICATIONS & ACHIEVEMENTS

- **NPTEL:** Practical Cyber Security for Practitioners (Score: **95%**)
- **Certifications:** Ethical Hacking Program, Diploma in Computer Application (DCA)
- **Workshops:** Bug Bounty and Cyber Crime Investigation; Participant in Smart Minds Marathon

SOFT SKILLS

Team Leadership, Team Management, Strategic Planning, Technical Communication, and Problem Solving.
